ALI KILIÇARSLAN

Software Engineer | Full Stack .NET & Flutter

Ankara, Türkiye | +90 555 299 83 43 | aliklcarslnn@gmail.com
Portfolio: alikilicarslan.alleyyazilim.com | LinkedIn
Seeking U.S. relocation | Requires employer-sponsored U.S. work authorization

SUMMARY

Software engineer developing Flutter applications, ASP.NET Core services and Oracle-backed enterprise workflows. Delivered offline-capable field applications, NFC payment/card integrations and web systems. Experience troubleshooting across mobile clients, APIs, databases and connected devices.

TECHNICAL SKILLS

Languages: C#, Dart, PHP, Python, JavaScript, SQL
Frameworks & data: ASP.NET Core Web API/MVC, Flutter, Oracle PL/SQL, SQLite/Drift, MySQL
Engineering: REST APIs, JWT, offline synchronization, outbox/idempotency, NFC SDKs, Git, Postman

PROFESSIONAL EXPERIENCE

Ankara Metropolitan Municipality (ABB) | Mar 2026 - Present
Software Engineer
• Delivered Flutter field applications and ASP.NET Core APIs backed by Oracle for meter replacement, work orders and maintenance workflows.
• Implemented SQLite/Drift persistence, transactional completion, outbox queues and idempotency keys to preserve records through connectivity loss and application restarts.
• Diagnosed synchronization and API/database transaction failures; implemented server-acknowledgment checks and documented backend remediation.
• Built a .NET request-routing integration layer and operations panel with AI-assisted suggestions, a rule-based fallback and server-side API credential handling.

Pronova Hydroponics | Aug 2025 - Mar 2026
Software Engineer
• Built ESP32 firmware for pH, EC, temperature and humidity sensors, rule-based dosing and pump/relay control; performed field calibration and commissioning.
• Delivered a PHP/MySQL dashboard with authentication, live monitoring, alerts, historical charts and Excel exports.

Dorçe Prefabrik ve İnşaat A.Ş. | Feb 2025 - Jul 2025
ERP Specialist Intern
• Created Oracle/PL/SQL procurement and inventory reports, supported IFS ERP users and contributed to MVC procurement and career applications.

Ankara Water and Sewerage Administration | Jul 2024 - Aug 2024
Software Engineering Intern
• Completed a Python/OpenCV application for reading meter indices from photographs; performed Oracle/PL/SQL analysis and reporting.

SELECTED PROJECTS

NFC Prepaid Water Application | Flutter, Dart, native Android/iOS SDKs
• Completed card reading, payment and water-credit writing integration, verified on devices; separated payment/card-writing steps with persistent transaction tracking.

Inventory Web and Mobile System | PHP, MySQL, Flutter
• Delivered barcode lookup, stock movements, stocktaking and shelf/location workflows across web management and a Flutter mobile terminal connected through APIs.

EDUCATION

Muğla Sıtkı Koçman University | Sep 2021 - Jun 2025
Bachelor of Science in Information Systems Engineering
